

AMENDMENTS TO THE DRAWINGS

Figure 1 has been amended: (a) to show the receptacle filters 29 discussed on page 6, line 31; and (b) to correct a double usage of the numeral “27” such that the membrane press is now labeled “37” and the top opening of the receptacle 23 remains “27.”

Figure 2 has been amended: (a) to show the receptacle filters 29 previously discussed with respect to the changes being made to Figure 1; (b) to fill-in the arrowheads on indicator lines to make them more visible; (c) to replace the reference number “27” with “37” to correspond to the aforementioned change regarding the membrane press in Figure 1; and (d) to add a label for the lower aperture 28 discussed on page 6, line 34.
